Master Electrician License # T1-4480

We started in business in 1989 focusing on servicing the residential community. We've always offered suggestions to our clients that were in their best interests as opposed to just adding on items for the sake of the sale. All our employees are trained the same way.

We are constantly looking out for different ways to complete things that will allow us to save money and to pass the savings on to you. Many times, we are asked to complete a project but when investigated further we find that there is a better answer than originally thought.

Our integrity level is high even when no one is watching. We make sure to do the right thing every time regardless of the sale.

Over the years we have followed this simple rule and it's working well for us and for our clients. Our #1 source for new clients is existing clients. Over 70% of our work comes from direct referrals from other clients.

We all try to our best ability to gain your trust and confidence in us as a team. We work hard every day to make sure that our customer experience is pleasant from the initial phone call to the end of your project. We are constantly asking our clients for reviews to make sure there aren't places we can improve. When find there are places to improve we actually act on it to make the adjustments for a better experience for everyone.

If you ever have any questions you can always reach out to us. Anyone on our team would be happy to assist you.

Steve Leski

President
